The market was fairly active and Salbt lower on all grades. Karly castern reports noted weak markets and lower prices. There were 187 head of mixed Texas cattle, composed of steers, cows, before and caives, all in fair flesh. They were on pale, but had not changed hands at the close. There were a few of nearly ellkinds in the native division and nearly every thing solid, and at very good prices. Quite a number of stockers changed hands. There seems to be a good demand for this class of cattle. Chicago had highly on sale; market lower. Kattass City closed to lower. This market closed

From the Kansas City Telegram.
"Seven thousand cars of steers will be

bandled by the Santa Fe route from New Mexico and Arizona this year," says the Stock Grower and Farmer. "One hundred and ten thousand steers will goont of New Mexico over this line alone. The Denver & Ft. Worth read expects to handle over one hundred thousand head from New Mexico. The drive out will be less than in CHICAGO, Ill., June 18.-The wheat mar-

former years and it is about correct to state that the output of steers from New Mexico this year will be about 225,000. Now let us see how this compare with our estimate of steers made March 8, last. Our inquiry was as to the number of steers that would be sold if prices were satisfactory, and the replies received gave the number of two-year-olds and up at about 200,000. Some few yearlings are being sold which will make the number up to about 225,000, the estimate of the railroad companies. Which goes to show that our March estimate is being proven correct." March estimate is being proven correct.

Where the Cattle Are.

Chevenne Live Stock Journal. There are simply no native steers east of

all grades. Eastern markets all report lower prices. Stockers in good demand. Hog receipts above expectations after the heavy run yesterday. Market 7 1-2 cents lower. Kansas City 10 to 12 1-2 lower than yesterday. Chicago lower. Close barely steady.

Receipts 187. Shipments 20.
The market was fairly active and Saide lower on all grades. Eastly eastern reports noted woak markets and lower prices. There were 187 head of mixed Texas cattle, composed of steers, cows. heifers and caives, all in tall flesh. They were on fairly active and the conditions of the prices and caives all in tall flesh. They were on fairly active and as the close. There papers tell the truth the number is com paratively small. It is universally admit-ted in Texas that the steer crop is smaller than it was a year ago—there has been a cutting down year by year since 1887. If the southwest is our main reliance for beef steers; if the number there is smaller

than in the past; if the corn states are out of steer cattle, does it not begin to look as if the time had come when stockmen and farmers should husband their cattle re-

ket was quite active early in the session today but quieted down later and near the close it livened up some. The close was 1/2c lower for July and 1/3c lower for the deferred futures than yesterday.

Corn was moderately active though at times was rather quiet. The feeling early

was somewhat strong and final prices show a net decline of 4c0%. Oats were active and unsettled. There was a good volume of business in the new was a good volume of business in the new crop months but only moderate tradings in the old crop futures. The market closed steady at a slight gain over the last sales of yesterday.

A quiet but firm feeling prevailed and

trading was limited to a few small lots in pork. July advanced slightly and the longer deliveries ruling slightly lower. A fair trade was reported in lard and prices exhibited only slight changes. Trading in short ribs was moderate and no new features developed. The leading futures ranged as follows:
